NO ACTION AS YET TAKEN ON TREASURER NOLAND'S RESIGNATION.

The Supreme Court Not Asked to Do Anything—Talk of Noland's Prosecution—He Will Remain and Take What Comes—His Probable Successor—O'Day's Position—The Investigation.

By Telegram to the Post-Dispatch. JEFFERSON CITY, Mo., March 10.—The Supreme Court was in session a short time this morning, and adjourned until Saturday, March 22. The fact that the Attorney-General gave no notice of his intention to commence quo warranto proceedings against State Treasurer Noland is taken as pretty good evidence that none will be instituted, and that the Governor will accept Noland's resignation as soon as the committee reports and at once name a new Treasurer. Any other course will delay matters at least three weeks.

One member of the committee, Mr. Chick, spent Sunday in Kansas City, and did not return here until 5 o'clock this afternoon. The other two members are going ahead with the work, however, with indications that it will be completed to-night. Mr. Noland thinks that the Governor cannot hold up his resignation, but the Governor does not agree with him. The case has been presented to the Governor, that if it is the constitutional right of every officer to resign, regardless of all other consequences, affairs could be easily be left in a bad shape. The Supreme Court decided in a case in which Gov. Crittenden's salary was involved that when the Governor is absent from the State on business pertaining to the State it is not necessary that the Lieutenant-Governor should be called upon to discharge the duties of Chief Executive, consequently

IF MR. NOLAND IS RIGHT every State official could walk out of his office the first time the Governor was out of the State on official business and let the departments go to the dogs. The Governor holds that while an official can not be prevented from resigning, yet there are contingencies under which a resignation may not be accepted as soon as it is presented.

There is a good deal of talk about Mr. Noland's successor. Col. Waugh of Boone, Harvey Salmond of Henry, Col. Elijah Gates of St. Joseph, Maj. Perry Radford of Chariton, and Lon V. Stephens of Booneville, are all mentioned. It is believed that the Governor will present to the Governor when an opportunity occurs. It is the general belief, however, that Mr. Stephens is the coming Treasurer.

Mr. Noland still makes the Madison House his headquarters, and he is holding up his statement until the Governor accepts his resignation. He is non-committal on all matters pertaining to the present trouble.

CAN TELL AN INTERESTING STORY. He will, but he is extremely doubtful if anything more than a general acknowledgment of guilt will be made public. He is one of the bondsmen, was allowed to borrow large sums of money out of the Treasury, and use the same for banking purposes without paying interest. An emphatic denial is entered to this charge. It has been customary here for years for the Treasurer and bankers to exchange courtesies in the shape of loans for a day or two in cases of a rush of some kind, but it was never suspected that money so expended was for any other purpose than mere accommodation for a very brief time, just as banks are in the habit of helping each other out.

Tuesday, at the outside, will see the end of the present proceedings, unless the Governor doubts some new plan consisting not entirely of the committee will report, the Governor will accept Mr. Noland's resignation, and name his successor, and the bondsmen will be notified to make up the deficit. He one seemed to know just what will become of Mr. Noland. He is not inclined to leave and two members of the State Democratic Central Committee have expressed themselves in favor of his prosecution. He could have left at any time since the investigation commenced, and could go even yet, if he wanted to, but it is plain that he has no intention of leaving. He will remain and take what comes, be it hard or easy to bear.

Mr. O'Day Asked to Pay Up. The shortage in the State Treasury failed to develop any startling features to-day. Mr. Simon T. Price, with whom Mr. Chas. Noland has his law office, in the Granite Block, on Saturday received a letter from Mr. Noland, inclosing a letter to Mr. John O'Day, sealed, which Mr. Price was requested to deliver. It was too late Saturday for the delivery of the letter, and Mr. Price could not learn the location of Mr. O'Day's country residence yesterday until five o'clock this morning. The delivery was not made until this morning. Mr. Price sought the first opportunity then, to place it in Mr. O'Day's hands. The letter took it, opened it leisurely and read it and then placed it in his pocket.

"I could not read it," said Mr. Price, "whether it was something to please him or not. He was placed in a position to read it, and he was equally placed when I left. He did not say what was in the letter, or intimate it, and of course I could not tell him what it was."

"Have you no idea?" he was asked. "None whatever. The letter was put in my hands in a letter from Charles Noland. I do not know whether it was from Charles or Ed."

THERE WAS ANOTHER STORY this morning in explanation of why O'Day failed to keep his promise to pay the shortage entire. It is to the effect that when O'Day first heard of the shortage and heard from New York he intended to pay

CALM BEFORE THE STORM.

A CHAT WITH MR. JAMES ZOHRAH, BRITISH MINISTER TO HAYTI.

The English Representative Not Recalled, but Merely Withdrawn—Condition of Affairs in the West Indies—His Founding of the Voodoo Worship.

By Telegram to the Post-Dispatch. NEW YORK, March 10.—Mr. James Zohrah, British Minister to Hayti, was in the city yesterday, being on his way to England. During the afternoon he talked with a reporter about Haytian affairs.

"I have been told that I was recalled from Hayti," he said, "but this is not true. I was merely withdrawn. I am still the representative of Her Majesty to the Haytian people, and may be sent back there at any time. I do not know why I was withdrawn. It does not mean that there is now or is likely to be any rupture in the peaceful relations between the two countries."

"What was the condition of affairs there when you left?" "Everything was very quiet."

"Confidence in the permanence of the new government was then fairly complete?" "I cannot say that. I do not think so. Matters are quiet, but it seems to me to be the calm before a storm. I look for another revolution there very soon. It seems to me that the people are in a condition that must precipitate another fight. It is too bad that it should be so. Hayti is naturally one of the richest countries in the world for its size. I believe that under a firmly organized government—a government where property was secured—the island would support in comfort a population of 20,000,000 souls. One can form no idea of the wealth of the island without a visit there. From what I have seen of the coffee forests, for instance, the coffee bush is not cultivated at all, but the trees grow wild in such luxuriance that it is utterly impossible for a man to penetrate them. Paths are cut through them from one village to another and that is all. When the coffee harvest comes around the people gather the berries from the edges of the groves, and the rest goes to waste. It is a very conservative estimate when I say that for every 1,000 tons gathered 800 tons go to waste. It is much the same with the sugar cane. The people do not cultivate the sugar cane. It grows wild. You can tell the by looking at the trees. They are not cut down. It is a straight piece two feet long. Everything grows in this fashion. In no other country could the drain of such constant warfare be sustained."

"What is the real feeling there in the matter of the sale of a foot of Haytian soil to the Americans?" "The feeling is that ever since the revolution, when those people obtained their liberty, they have been taught that whenever a foreigner obtained a foothold in that country was able to buy a foot of land at the end of Haytian freedom was at hand, and that the sale of a foot of Haytian soil to a foreigner meant that they would all soon be put back into slavery. However, I found that the people are not so bigoted. They remember that Dr. Nemours, a representative of the revolutionary party, his letters to your State Department were all published in the White House. He wrote that while his party, if successful, could not sell a whole station to the American Government, the matter could be arranged in some other way. They read those letters down there. Your State Department has never disavowed an intent to acquire land for a coal station there. They saw why it has not done so, it did not intend to acquire it. There is just now undoubtedly prejudice against the United States among the people."

One of the most exciting incidents of Mr. Zohrah's career was when he conducted a tour through the West Indies, and was engaged in a duel with a British man of war. He and the other foreign diplomats gathered about the carriage with a bullet should kill a diplomat, and so bring down the vengeance of the diplomat's country. Mr. Zohrah talked briefly of the Voodoo worship. He said the tales told in Sir Spencer St. John's book about the sacrifice of human beings were true. He said he saw the Voodoo practices in their worst forms, and in town at that, and not in the country, where Mr. St. John supposed the practice alone existed.

He was also a Voodoo worshiper. He said he saw the Voodoo practices in their worst forms, and in town at that, and not in the country, where Mr. St. John supposed the practice alone existed.

THE DEMON DRINK.

Friends, Fortune and Reputation Sunk in the Mad Race for Liquor.

NEW YORK, March 10.—Charles E. Arnold, once a leading member of the New York bar and for some time a theatrical manager, died in the Plinthe Hotel, a Bowery lodging-house, Friday morning. He was born in Brattleboro, Vt., about fifty-five years ago and graduated from Harvard. He then studied law, and soon after his admission to the New York bar and quickly obtained a leading position among the lawyers of this city. He became the junior member of the firm of Stoughton, Barnett & Stoughton, with offices in Wall street and the Grand Opera-house, where at that time the Erie Railroad, under the management of the National Line, was in the habit of helping each other out.

AMUSEMENTS.

Opening Bills at the Various Theaters—"Pinafore" To-Night—Other Events.

"Pinafore" will be put on in grand style at Music Hall to-night, by the Duff Opera Co. The cast, which was printed in yesterday's Sun, was the strongest ever seen here in Gilbert & Sullivan's famous opera. The scenery is the same as was used at the Chicago Auditorium during the great run there, the size of the Exposition stage being such as to allow its use without reducing. "Pinafore" will be given for three evenings and the Wednesday matinee, and will be followed by "Mikado," for the rest of the week.

Marie Walworth begins her week's engagement at the Grand tonight as Viola in "Twelfth Night." The production is highly artistic, and is put on in a splendid manner.

"Blue Bird," a new musical comedy, is at the Olympic last night. It was welcomed by a crowded house, and everything that was said or done seemed to go well with the crowd. The piece is in a measure like the "Gypsy" of last season, but it is a new thing. It is put on at the same place as "Blue Bird," the Chicago Opera-house. But it is in a new way. When the curtain went up on the grove of the King of Chastel last night, with its flashes of blue and red, there was a long continued applause. There was no lack of interest. Then Zara, the fairy, commanded that the chestnut tree of the grove should be cut, and that in its stead a modern performance of the opera should be put on. From that point the fun was lively. The principals are all good, the ballets well trained, the costumes splendid, the scenery and machinery of the highest order. Marie Walworth begins her week's engagement at the Grand tonight as Viola in "Twelfth Night." The production is highly artistic, and is put on in a splendid manner.

"Blue Bird," a new musical comedy, is at the Olympic last night. It was welcomed by a crowded house, and everything that was said or done seemed to go well with the crowd. The piece is in a measure like the "Gypsy" of last season, but it is a new thing. It is put on at the same place as "Blue Bird," the Chicago Opera-house. But it is in a new way. When the curtain went up on the grove of the King of Chastel last night, with its flashes of blue and red, there was a long continued applause. There was no lack of interest. Then Zara, the fairy, commanded that the chestnut tree of the grove should be cut, and that in its stead a modern performance of the opera should be put on. From that point the fun was lively. The principals are all good, the ballets well trained, the costumes splendid, the scenery and machinery of the highest order. The principal characters are all good, the ballets well trained, the costumes splendid, the scenery and machinery of the highest order.

JUDGE EMERSON'S PLACE.

FRANK BUCHANAN OF NEW LONDON ANXIOUS TO GET IT.

The Aspirant Intimates That a Change Will Be Made in the Near Future—Congressman Kinsey's Position—His Slight Changes in the World's Fair Bill—Ex-Congressman Taubee's Condition—Washington News.

By Telegram to the Post-Dispatch.
WASHINGTON, D. C., March 10.—Mr. Frank Buchanan of New London, Mo., the leading candidate for United States Marshal of Eastern Missouri, was met this morning after he had a talk with Congressman Kinsey. Mr. Buchanan is not inclined to believe that Marshal Emerson will be permitted to serve his term of office out. On the other hand he is of the opinion that a change will be made in the near future. He informed Congressman Kinsey that he thought he had sufficient time in which to agree upon a candidate from the Western district, and that it was now his intention to force the matter to a climax. A short time ago Mr. Buchanan had an interview with Hon. George D. Reynolds, and while the latter was inclined to await the pleasure of Congressman Kinsey he believed that a change would be made to the Marshal's office could be well cared for with a man like Buchanan, acquainted with the country and the district, when coupled with his own extensive acquaintance with affairs in the St. Louis end of the district. In St. Louis County, Mr. Buchanan said, the name of Warren was talked of by Mr. Kinsey's friends, but the slattery of his candidacy he did not believe. He did not acknowledge that he meant to file charges in the case of the present Marshal to bring about a removal, but he intimates that he was bound to follow his present attitude. Mr. Buchanan is more than determined and feels amply qualified to maintain his own interests in the affair. He feels sanguine that a change will take place and that he will be the fortunate one to succeed. Mr. Buchanan, among other things, alluded to the disqualification of the present Deputy Marshal in the Macon district. He intends to remain here until something is done in that case.

A. L. Tomblin of St. Louis, Mo., is here and making a determined fight against Capt. Williams, the recently appointed Marshal at that place. He alleges that Capt. Williams is neither a Republican nor a Democrat, and not the choice of the people in that section. In all, he attempts to establish the fact that Capt. Williams is a man of no account. Mr. Tomblin himself is cashier of the bank at St. Louis and has been a candidate for National Representative in 1888, but his appointment will be made when the State or district is re-divided by the Commissioner of the General Land Office. Mr. Tomblin is now already established districts by reason of the great interest in national banks, in which he has been successful. He has been involved too much work in the examination and where he is now required it is safe to say that he will be appointed to that position. The World's Fair Bill.
WASHINGTON, D. C., March 10.—The Special House Sub-Committee on the World's Fair held another conference with the visiting Chicago delegation to-day and completed the bill, which will be presented to the full committee as soon as the committee meets to-day. The changes made in the bill by the sub-committee are few, and the principles of the original bill are preserved.

The provision for a National Committee, composed of two members from each State, nominated by the Governor and approved by the President, has been retained, but an amendment has been added to the effect that the members shall be divided equally between the two political parties. The Government Commissioners are to have control of the operation of the Fair, the appointment of judges, distribution of awards, etc., but the United States Marshal is to be recognized in the bill to prepare the site, construct the buildings and retain control of the financial affairs. The President is not to appoint Commissioner, but to appoint a committee of five, one of whom is to be the United States Marshal. The committee is to have the honor of the Fair, and the United States Marshal is to be recognized in the bill to prepare the site, construct the buildings and retain control of the financial affairs.

Charges Against Judge Emerson.
WASHINGTON, D. C., March 10.—Information and charges coming from Hannibal, Mo., have been filed against United States Marshal J. W. Emerson of the Eastern Judicial District of Missouri assailing his private character, and charging him with the acts of his deputies. These charges, of course, are not responsible for the acts of his deputies. These charges, of course, are not responsible for the acts of his deputies. These charges, of course, are not responsible for the acts of his deputies.

A Land Company's Victory.
WASHINGTON, D. C., March 10.—The Supreme Court of the United States, by Justice Blatchford, to-day rendered an opinion affirming the judgment of the Circuit Court for the District of Nebraska in the case of Thomas Jefferson, plaintiff in error, against the East Omaha Land Company. The case involves title to about forty acres of land on the bank of the Missouri River, opposite Omaha, formed in the course of twenty years or more by gradual accretions. The land company is the owner of the lot against which the deposit was made. The court decided in favor of the accretion of the forty acres, and the decision is in its favor. The water line is the boundary of the lot and the limit of the same is bounded by that line and shifts with the water.

Ex-Congressman Taubee's Condition.
WASHINGTON, D. C., March 10.—Ex-Representative Taubee has suffered another relapse, and his condition this morning is almost hopeless. He is delirious, and his pulse is fluttering and very weak. The physicians fear that some of the small bones at the base of the brain have been splintered, and that inflammation of the membrane has set in.

FIFTY-FIRST CONGRESS.
The Senate.
WASHINGTON, D. C., March 10.—Among the bills reported from committees and placed on the calendar to-day were the following: For public building at Baton Rouge, La., \$100,000; for the construction of Post-office buildings in towns and cities where the Post-office receipts for the last three years exceeded \$5,000 a year.

Mr. Hoar, from the Judiciary Committee, reported a bill fixing the time and places for holding United States Courts in the State of Washington and it was passed.
Mr. Hoar, from the Committee on Privileges and Elections, reported an order for the striking from the Congressional Record of the words inserted by Mr. Call in the report of his investigation into the case of Mr. Chandler as the son of a senator and for the substitution

of the original report made by the official reporter. The order was placed on the calendar. Other public building bills (for the State of Washington) were reported and placed on the calendar as follows: Tacoma, \$100,000; Seattle, \$100,000; Spokane Falls, \$100,000; Walla Walla, \$30,000.
Also a bill for the appointment of an Assistant General Superintendent and Chief Clerk of the Railway Mail Service.
Mr. Stanford offered a preamble and resolution instructing the Committee on Finance to inquire what relief for the existing agricultural depression may be furnished by the United States Government, and particularly whether loans may not be made by the Government upon mortgages on real estate, independent of improvements, and of lands within the limits of the resolution, and the resolution was referred to the Committee on Finance.
Mr. Plumb offered resolutions, which were agreed to, to the effect that the Secretary of the Interior for a statement as to the causes of withholding patents for lands and of lands within the limits of the resolution, and the resolution was referred to the Committee on Finance.

THE HOUSE.
WASHINGTON, D. C., March 10.—On motion of Mr. O'Connell the House resolved that a bill was concurred in providing the Senate Committee on Immigration and the House Committee on Immigration and Naturalization shall jointly investigate the workings of the various States relative to immigration.
The resolution was so amended as to direct the committee to investigate the effect of American workmen which is likely to follow the purchase of American industries by foreign capitalists also to report on the opinion of the committee, such island is the best and most suitable place for such deposit.
The floor was then accorded to the Committee on the District of Columbia.

THE SOUTHERN FLOODS.
Bad Break in the Arkansas City Levee—At Cairo, Ill.
ARKANSAS CITY, Ark., March 10.—The levee at Sappington Hoop, six miles above this city, gave way at 3 o'clock yesterday morning and the entire river broke the break to Louisiana is now under water. The break occurred at a point where the levee was only 10 feet high, but it was considered sufficiently strong to withstand the force of the current. The river was rising rapidly and the water poured down here in the bank and the water poured down here in the bank and the water poured down here in the bank.

At Cairo, Ill., March 10.—The river came within an ace of reaching the 48-foot gauge yesterday. The water under the bridge measured 60 feet and continued to rise all day. The ferryboat Three States has been having a difficult time making landings on account of the high water. On present side it runs up to a point where a ridge strikes the river. The low lands are all under water. On the Kentucky side the boat lands at Wickliffe, over half a mile away from the landing used by the boat. The river is now at a point where it is almost impossible to land. The Ohio and Mississippi River towns are greatly inconvenienced by the inability of the steamboats to find landing, and consequently cargoes cannot be delivered.

A SHORT-LIVED STRIKE.
Chicago Switchmen Get Rid of an Obnoxious Yardmaster.
CHICAGO, Ill., March 10.—The switchmen employed on the Chicago & North Western Railroad, between 300 and 400 in number, went on strike this morning, and as a result the local yards are blocked and all trains are delayed. The men claim that Yardmaster T. Brooks is unbearable. They demand his removal from the company. They demand that the company should not employ a man who is so obnoxious to the men. A squad of forty policemen has been sent to the scene of the trouble to prevent an outbreak.

Later in the day the company acceded to the demands of the men; the obnoxious foreman was transferred to another position and work was resumed.

WILKESBARR, Pa., March 10.—The recent horror in the South Wilkesbarr shaft was the cause of a most solemn and impressive service in St. Mary's Catholic Church, here, this morning. It was announced yesterday that a young man would be celebrated in behalf of the Catholic miners, and a large number of miners who had flocked to the church to take part in the service in behalf of their mining comrades.

OVER THE ENGINE-HOUSE.

THE MERCHANTS' TERMINAL ROAD TO RUN OVER A CITY BUILDING.

The Company Promises to Indemnify the City and Run Trains on an Elevated Structure. Noisy—Immense Pumping Engines for the Water-Works—President Flad's Order—City Hall Notes.

C. C. Blainwater, representing the Merchants' Terminal Co., and Mayor Noonan, City Counselor Bell, Comptroller Stevenson and Chief Engineer of the Fire Department, representing the city, met in the Mayor's office at noon to-day to consider an objection to the plans showing the proposed route of the road from the river front to Union Depot. The plans as they have been submitted show that the elevated road will run over the rear of the No. 22 Engine House at Main and Pine streets. Chief Lindsay objected to this and said it would prove such a nuisance showing the proposed route of the road from the river front to Union Depot. Chief Lindsay objected to this and said it would prove such a nuisance showing the proposed route of the road from the river front to Union Depot.

At the conference Mr. Blainwater and the Mayor of Venice was arrested in East St. Louis last night by the police on the charge of stealing a horse and rig from Dr. Grayson of Venice. Yesterday afternoon Dr. Grayson telephoned the police that Kelley, who was employed by him as a hostler, had stolen the rig and would probably try to dispose of it in East St. Louis. Kelley was arrested at the police station at East St. Louis, and was taken to the police station at East St. Louis.

President Flad's Order.
President Flad of the Board of Public Improvements said this morning that his order to the heads of departments concerning repairs in the public institutions was intended to give out this work. It was intended also, he said, to place a check on the work of the departments.

McCasland & Co. of St. Louis, Mo., are anxious to speculate in East St. Louis realty. REAL ESTATE.

The Veiled Prophet's Den—Richmond Place and Other Speculators.

Inquiry for the purchase of real estate was exceedingly good to-day despite the down pouring rain, and some very good sales were practically closed, but the interested parties object to giving the details pertaining to such transactions until they have been made more binding than at present with the mere payment of earnest money.

The most interesting sale in real estate circles this morning was about the sale of the former site of the Veiled Prophet's den at the southeast corner of Twelfth and Chestnut streets. This property belongs to Robert Lucas. It has a frontage of 100 feet by a depth of 100 feet. There are no improvements upon the lot worthy of the name—nothing more than some sheds and a great many barn-like structures. His former Majesty's caravans have been fitted out with so much glitter and tinsel and pomp for his nocturnal parties.

Mr. Lucas is not in the city and for that reason he could not be seen, but it has been stated, upon what would be ordinarily accepted as excellent authority, that the property has been sold for \$50,000. This is a considerable consideration, and the sale of the ground at that price is more than probable, as the lot is situated in a very desirable location.

A Word About Catarrh. "It is the mucous membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it enters into the very vital and delicate life but a long-drawn breath of misery and death, dulling the sense of hearing, transmuting the power of vision, destroying the faculty of smell, tantalizing the breath and killing the pleasure of taste. Indolently creeping on, it is a subtle cold in the head, it assaults the membranous lining and envelops the bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure relief, and the only reliable viatives are simply preproportioned sufferings, leading to a fatal termination. SANDFORD'S RADICAL CURE, by Inhalation, and by Internal Administration, has never failed; even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly eradicated. SANDFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box of CATARRHAL CURE, by Inhalation, and by Internal Administration, has never failed; even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly eradicated.

Spring Jackets.

Ladies' sizes for \$10 at Crawford's this week in gray mixed cloth with finished seams. An elegant ladies' cloth, red, black, blue, green, blue or modes, with high collar and puffed shoulder, for \$1.85. It is the first of the season; that don't matter. Only prices, very, very low prices, will move goods now, and Crawford's goods must move while the grand additions to the premises are being built on.

VESTS ADVISE TO MONTANA.

He Wanted Democratic Senators—His Opinion of the President.

HELENA, Mont., March 10.—The Republicans here are just now having considerable fun out of a letter from Senator Vest of Missouri, in view of the victory of Senators Sanders and Power. The letter was found in the desk of a State Senator after the Senate had adjourned. It is dated at Washington, December 26. In the letter Vest says:

"The Democrats made a mistake in going into the Senate session. It was a bad break, but it has been done. We must do the best we can with what is left. All of us—Republicans and Democrats—must elect two members of the Legislature next year. It will not do for two Republican Senators to be here without Democratic Senators. After instructions as to how to proceed, the letter continues:

"Of course the Republican Senate will not admit our people, but we'll make it hot for them that they'll be glad to go. If they need them it would be different, but they have six majority already and can afford to play the high judicial role. The United States Senate requires that the Governor shall sign the certificates of a Senator and we will have the best of it on that point, but they will have the best of us as to the Senate. The fact that our people went into session with them is an estoppel as to the legal organization of that body. It was a terrible mistake, and one which we did not anticipate. I took a full statement of all the questions involved, but did not think of our people walking into their parlor as they have done. It only remains for us to have two contestants here on time, and if we do nothing else, we will show up the paragon of the age. Harrison's conduct in the matter. You know what I always said. I thought they were now knows the same. I think God that he is so mean, constitutionally, that he will continue to drive away from him every man of honor and liberal and good feeling, until the people will come to the rescue of the Government from this congealed mass of meanness."

THE FATE OF ROWLAND LEACH.

The Traveling Man Believed to Have Been Murdered for His Money.

CHICAGO, Ill., March 10.—The police are still engaged in the search for Rowland Leach, the New York traveling man who disappeared about a week ago. It is now believed that he was murdered for his money. Abe Monheim, a St. Louis traveling man and friend of Leach, says the latter had \$500 a week ago Saturday, and he cashed a check for \$100 on that day. The last seen of Leach was on Sunday night. In the afternoon he called on Frank Winick, a traveling man, and they had a little audience in the latter's room. They had been talking of adjoining farms, and Leach always carried a gun. When he came to Chicago, they drank considerable, and about 8 o'clock Leach and Winick went to a hotel. Mrs. J. C. Smith of 40 Peck court, still lived upstairs. When she did not, but someone else said she did. She returned, returning, wearing the house, displaying his money. He then went out the back door, leading into a small and dark court, and he would go and see "Smithie." Mrs. Smith, however, says he did not call her. The man who had written him a note, coming to him that he had not called on her, in St. Louis, he had written him a note, coming to her Sunday night, and the ally led directly to her house, but she says he did not call on her. A man named Mansfield says he saw Leach on a bed in a small room over the Little Auditorium saloon, but the proprietress of the place says she did not there, and as Mansfield is on the verge of delirium tremens the police have no faith in his story. The police will keep her under surveillance as well as the Keene woman.

A Pretty Female Samson.

New York, March 10.—Mary Martin, a pretty girl about 18 years of age, has inaugurated a reign of terror at the Raymond Street Jail. She snapped off the iron bars and escaped several times in this manner, and when handcuffs were placed on her wrists she snapped them. She was bound with ropes, but immediately freed herself by a series of hair-splitting tricks. The keepers in the penitentiary told me that I could make \$100 a week if I went on exhibition in a Bowery museum showing people how strong I was, but I told them that God gave me my strength to strike down my enemies, and not for exhibition purposes.

COWARDLY CHARLEY.

HOW PUGILIST MITCHELL IS LOSING FRIENDS BY HIS BRUTALITY.

An Expert Opinion of Dempsey's Present Condition—Introduction of Base Ball in Great Britain—McKean's Jump to the League—Dempsey's Disappearance After the Brotherhood Sporting News.

MONTH or so ago I found fault in this column with Frank Sinatra for having, at the best of Desai Bellwood, the concert singer, throw a "Abingdon" bat out of our dining-room down a flight of stairs, says Macon. I want to take it all back. Why, a nice specimen of an English sporting gentleman this Baird is, to be sure, and he and his countrymen must be of him, to be sure! Not content with hiring a lot of ruffians to break up a prize fight when his man was being worsted, he invited to his house and table and when they quarrel in their cups, as Charley Mitchell and Chestfield Goodie did the other night, he urges the biggest of the pair to brain the other with a poker. By the way, Mitchell comes in for no small share of condemnation, even from his friends in this country, for using a weapon on an opponent. A well-known athletic English actor, speaking of this last night, said: "Unless Mitchell can prove conclusively that Goodie was about to assault him with a weapon, he will find no friend or acquaintance in America to justify his assault of Goodie with a poker, and in England, where resorts to weapons are always condemned, he will find even worse." Probably he will claim that he was so crazed by "Abingdon's" wines that he did not know what he was doing. This Irish blackard has already been the cause of stopping boxing before the Pellican Club, and his last performance, his beating of Gladys Leslie, ought to insure him a term on the treadmill.

Mitchell's assault on Goodie will probably put an end to the proposed match between him and Frank Sinatra. He had already posted a forfeit for a twenty-round go for \$1,000 a side with the Australian, and had the match been made it would have created intense excitement not only in Great Britain, but also here, in Canada and in Australia. During my talk with Sinatra he said: "McKean's a good fellow. He never would have amounted to a hill of beans but for you writing him up. Do you know who was the cunningest fighter I ever met?"

"Charley Mitchell," I asked.

"You know the fellow's response, 'and if anybody doubts that he's a fox just let them tackle him in a ring.' Mitchell has been very big of late, and though Sinatra has the advantage of him in height and reach, Charley's experience and cunning might enable him to out-point him and out-fight him."

Dempsey All Right.

In the light between Jack Dempsey and Billy McCarthy Jack McCalliffe won the toss for choice of corners, says Macon, and the friends of Dempsey were horrified when he chose the "hoodoo" corner for his man. No man who has ever sat in that corner had won a fight in that ring, and there was much sage wagging of heads among the knowing ones as Dempsey went into the ring. Jack McCalliffe, an innovation which almost equally alarmed his superstitious friends. He discarded his usual blue and white striped trunks and wore all his victorious fights, and was arrayed in heartless blue trunks, short, showing his shoes. The blue lights had faded him in his fight with the Marine, and so he discarded his usual blue and white striped trunks and wore all his victorious fights, and was arrayed in heartless blue trunks, short, showing his shoes. Base Ball in Great Britain.

An international base ball championship series, with England, Ireland, Scotland and the United States as contestants, is not beyond the range of possibilities, says the Cincinnati Enquirer. This much desired state of affairs may not be developed for several years, but when it does the game will receive a big boom. Interest would be raised to a high pitch by championship series between England and America. The initiators steps looking toward the permanent establishment of America's greatest game in England have been taken, and it will soon gain a foothold. Newton Crane, once a prominent attorney in St. Louis, and the lieutenant of the Cleveland League Club, has been granted leave to put a club in the park and to use it for athletic events when games are not being played.

The New Ball Park.

The measurements for the new grand stand and open seats in the Brotherhood Park on Russell and Missouri avenues were made yesterday. The plans will, it is expected, be ready by to-morrow night and work will be begun Wednesday. As the first game is to be played on March 26 between the Chicago and Cleveland Brotherhood teams the work will have to be pushed forward rapidly. The Olympic Athletic Club has asked and been granted leave to put a club in the park and to use it for athletic events when games are not being played.

Interest would be raised to a high pitch by championship series between England and America. The initiators steps looking toward the permanent establishment of America's greatest game in England have been taken, and it will soon gain a foothold. Newton Crane, once a prominent attorney in St. Louis, and the lieutenant of the Cleveland League Club, has been granted leave to put a club in the park and to use it for athletic events when games are not being played.

Base Ball in Great Britain.

An international base ball championship series, with England, Ireland, Scotland and the United States as contestants, is not beyond the range of possibilities, says the Cincinnati Enquirer. This much desired state of affairs may not be developed for several years, but when it does the game will receive a big boom.
